About Me

Hi, my name is Aryan (arr-ree-yan)

My name is Aryan Chaudhari, and I'm a Business Administration student at UC Berkeley Haas, concentrating in finance and consulting. I'm drawn to work that values clear thinking, strong structure, and an understanding of how decisions translate into real-world outcomes. I enjoy breaking down complex problems and continuously building my financial skill set.

I grew up in Southern California and spent several formative years living in South Dakota with my family. Moving between very different environments shaped how I approach people and work. It pushed me to adapt quickly, stay grounded, and feel comfortable navigating unfamiliar situations.

Outside of academics, I spend a lot of time on Spotify and enjoy music as part of my daily routine. I'm interested in how platforms use data and strategy to build products that people genuinely care about, and how those decisions scale over time.

I'm motivated by learning, building, and working at the intersection of finance, strategy, and real-world impact, and I'm excited to continue developing as a finance professional in spaces that feel thoughtful and relevant.

MICC International Case Competition 2025

I competed in the USC International Business Management Case Competition during the Spring 2025 semester, placing top 5 out of 25 global teams.

Financial Case Studies

I love finance, here are some cool studies I've put together

BASED ON TARGET COMPANY: WACKENHUT CORP			
Wackenhut Corporation			
Year	2002	2003	2004
Revenue (\$ million)	5.7	10.6	130.4
Assets (\$ million)	1.47	1.8	1.8
Debt (\$ million)	29.7	0.89	0.89
Equity (\$ million)	3.9	70.2	70.2
Market Cap			
Additional Information as of November 1997			
Current Yield	5.72%		
Current Bond Rate	5.58%		
Corporate Bond Yields:			
AAA			
AA			
A			
BBB			
Cost of Equity			
Risk-Free Rate			
Market Risk Premium			
Cost of Equity			
Cost of Debt			
Pre-Tax Cost of Debt			
Post-Tax Cost of Debt			
Weight of Debt and Equity			
Debt	13.12%		
Equity	86.88%		
WACC			
Weight	Cost	Post Tax Cost	WACC
13.12%	9.99%	6.59%	
86.88%	15.26%	15.26%	

Harvard Business School DCF Case Study

Ross Stores, Inc. 2012-2025 Financial Analysis	
1. Sales Growth: Not only increased from \$1.17B (FY2012) to \$2.48B (FY2025) to \$3.1B (FY2026). Year-over-year sales growth: +2.5% (FY2012), +16% (FY2013), and +1.7% (FY2014) (Appendix 1)	
2. Operating Margin: Not only increased from 14% in FY2012 and 15% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
3. Debt: Not only decreased from \$2.9B in FY2012 to \$0.89B in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
4. Equity: Not only increased from \$3.9B in FY2012 to \$70.2B in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
5. Market Cap: Not only increased from \$1.17B in FY2012 to \$2.48B in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
6. Dividend: Not only increased from \$0.00 in FY2012 to \$0.00 in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
7. Earnings Per Share (EPS): Not only increased from \$0.00 in FY2012 to \$0.00 in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
8. Return on Equity (ROE): Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
9. Return on Assets (ROA): Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
10. Return on Capital Employed (ROCE): Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
11. Operating Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
12. Financial Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
13. Operating Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
14. Financial Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
15. Operating Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
16. Financial Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
17. Operating Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
18. Financial Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
19. Operating Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	
20. Financial Leverage: Not only increased from 0% in FY2012 to 0% in FY2014, reflecting sustained cost-cutting and operational efficiency in retail operations (cost, savings). 15.2% in FY 2025 (assumed sustained following FY2021)	

ROSS Stores Inc. Financial Analysis

The investment will be depreciated to zero on a straight-line basis for tax purposes. SEI's marginal corporate tax rate on taxable income is 40%.				
PART A) Payback Periods				
Project	Initial Invest	Remaining after y	Remaining after y	Total Pay
A	-\$10,000	\$0	\$0	\$0
B	-\$10,000	-\$2,499.80	\$0	\$0
C	-\$10,000	-\$5,999.67	-\$999.73	\$0
D	-\$10,000	\$0	\$0	\$0 0.99999
Based on Payback period we would rank the projects in this order: DIA, B, & C				
PART B) Accounting Return on Investment				
Project	Year 1 ATPro	Year 2 ATPro	Year 3 ATPro	Average ATPro
A	\$0.00	\$0.00	\$0.00	\$0.00
B	\$2,500.20	\$2,500.20	\$0.00	\$1,666.80
C	\$667.00	\$1,666.60	\$6,667.00	\$3,000.20
D	\$6,667.00	\$667.00	-\$333.20	\$2,333.60
Based on Accounting ROI we would rank the projects in this order: C, D, B, A				
PART C) IRR				
Project	Initial Invest	Year 1	Year 2	Year 3
A	-\$10,000.00	\$10,000.00		
B	-\$10,000.00	\$7,500.20	\$7,500.20	\$0.00
C	-\$10,000.00	\$4,000.33	\$4,999.93	\$10,000.33
D	-\$10,000.00	\$10,000.33	\$4,000.33	\$3,000.13
Based on IRR, Project D has the highest Internal Rate of Return				
PART D) NPV				
Project	NPV	Discount Rate 10%	Discount Rate 35%	NPV
A	-\$826.45			-\$1,820.44

Valuing Capital Investments

El Tiny Café Mission Video Roots Consulting

A mission video I created with the premier pro-bono small business advisory club I founded called Roots Consulting, empowering businesses like EL Tiny Café

Ear-Plug Start Up Venture (Funded)

Ear-Plug is a local music student start-up that me and my friends started to help connect musicians, venues, and fans.

Patagonia Case Competition 1st Place

I consulted for Patagonia, creating a strategy for them to use the waste in the atacama desert to create a clothing line. I placed 1st out of 25 teams.
